

Ronald Harriman  
Chairman Tax Accountability Committee of Idaho

January 5, 2015

My name is Sandra Taylor and I'm writing in regards to your ad in the paper about student loans. My degree is not accepted by any employer in business, including government, because I was informed at interviews that I did not qualify, because I did not have the required HR courses for employment.

I have had my degree for 10 years now and still have not been able to find a job in my field, which is Human Resource Training and Development (Idaho State University) with emphasis in Corporate Training. In checking with other graduates of my class, I was informed that they were having trouble finding work as well. I was also told that because companies were cutting back due to the economic stresses, they were requiring their supervisors to do all the training. This means that even though the economy has improved it is still under economic strain. Therefore this degree is useless...needless to say, I'm under a Federal Student Loan debt of \$54,000 of which I have yet NOT been able to make payments due to low wages in this state. Therefore I have incurred a sizable amount of interest. I would appreciate your input on amending Title 33-2400 of the Idaho Code and let me know if you can provide me with any help.

I look forward to hearing from you.

Sandra Taylor
